When a baby or child dies, the world shifts in a way that has no comparison.

There is no right way to grieve and no timeline to follow. Every family's experience is deeply personal and individual.

We are here to help create meaningful moments, offer practical guidance, and support you in making informed choices that feel right for your family.

You may wish to personalise one of our offerings, or consider some of the suggestions below:

- Creating a memory box to hold precious keepsakes such as blankets, clothing, hospital bands
- Taking photographs or videos
- Hand and footprints, or ink and clay impressions
- Bathing, dressing, and wrapping your baby
- Writing letters, messages, or wishes to your child to keep or include in their farewell
- Choosing music, readings, or symbols that hold personal meaning
- Introducing your child to siblings or other important family members, in a way that feels right for you
